OTHERS

Panel Arbitrator & Mediator & Adjudicator,
Kuala Lumpur Regional Centre for Arbitration

Belden has specialised for more than 20 years in procurement strategies, contractual risk management, on-project claims and contractual advisory, and dispute resolution for the construction, engineering, energy and utilities, and oil and gas industries.

He is also regularly appointed as an arbitrator and adjudicator for domestic and international disputes arising in these industries. His international and domestic experience includes:

- design and construction of mixed developments in various countries including specialised buildings such as hospitals and shopping malls
- design and construction of FPSO, LNG MPUs
- dredging and reclamation works and other types of geotechnical-related sub-terrain works
- various infrastructure and transportation projects such as the Kuala Lumpur International Airport, KL Sentral, the cable stay bridge at Sg. Prai in Penang, various highway projects, the double track railway projects in Malaysia, and the MRT project in Kuala Lumpur and Selangor
- design and construction of utility projects such as coal-fired power stations, reservoir, pumping plant and laying of pipelines, and sewerage treatment plants
- various specialised M&E-related projects such as district cooling plants and ice storage systems
- various procurement structures that include design and build, and partnering elements such as PDP using various standard contracting models including FIDIC and NEC, and creating bespoke models
