Asian International
Arbitration Centre (AIAC)*

Practice Areas

*Construction and
Engineering*

Infrastructure

Energy and Utilities

Oliver's practice is focused in construction & engineering dispute resolution and on-project advisory.

He focuses on both domestic and international arbitration as well as adjudication relating to construction, infrastructure, and energy disputes.

His experience in claims advisory and dispute resolution includes:

- *International arbitration involving double track railway infrastructure and track work;*
- *International arbitration relating to the design and construction of mixed developments in the UAE;*
- *International arbitration relating to the construction of a steam cracker complex facility;*
- *Arbitration relating to the design and fabrication of offshore rigid risers;*
- *Arbitration relating to the design and development of a 5-star hotel in Kuala Lumpur;*
- *Arbitration involving disputes relating to the design and construction of sewer line and associated pumping facilities;*

- *Arbitration in respect of the design and construction of an interstate controlled-access highway project running along the west coast of Peninsular Malaysia;*
- *Litigation involving the construction of PMU 275/132kV Gas Insulated Switchgear;*
- *Litigation involving building substructure works for residential properties;*
- *Various adjudications involving the construction of infrastructure for commercial properties;*
- *Advisory for a Malaysian electricity company in relation to the construction of a 1000MW coal fired power plant.*
